

SHARING KNOWLEDGE

Solidarity

Makes

JOY

Coordinator of the project:
Milena GLUŠIČ

Contributor on the project:
Andrej KOTNIK

The illustration was
contributed by Manca Flajs.

Sharing knowledge

= a way of informal **gratis** education

→ Target groups of a project:

=> The project aims at those **individuals** who want to share their knowledge and experiences to others, => the course is being attended by the **population** who can have a possibility to get free education, to be creative and to associate with others

→ Role of the library: organizer, coordinator and promoter of the project

→ Results: satisfaction on three levels:

- satisfaction of **librarians**, as we perform our mission for people and local community,
- satisfaction of **educators** as they give something to the community,
- satisfaction of **participants** as they receive free lifelong education and learn new skills.
