MAKER SPACE

Makerspace as a bridge between Traditional library and Emerging technologies.

ADVANTAGES OF HAVING A MAKERSPACE IN A NATIONAL LIBRARY:

FOR PUBLIC LIBRARIES
Makerspace is a chance to ...
- Give new perception on libraries' services in the digital age
- Build innovative libraries' reputation
- See adaptation of new media and technological literacy in problem solving
- Witness possibility of creating low-cost, sustainable but at the same time popular services

FOR NATIONAL LIBRARY
Makerspace is a way to ...
- Develop personal and social skills and find studies or career paths
- Reduce digital and social exclusion
- Discover the library as a diverse and engaging “third place”
- Use hardly accessible technologies and knowledge for free
- Bring data and knowledge into meanings and decisions

FOR USERS
Makerspace is place to ...
- Learn by doing

Make, create, invent, innovate and imagine in an environment which includes physical resources, digital tools, a community of makers, and librarians who share this space.

Traditional Library: Electricity

Emerging Technologies: Electricity
